

1. SPACE

We all need space. Space is a place we can spread out and think when we're working on something.

2. TOOLS

Beyond the use of our best tools; our brain and hands, having a few basic tools elevates creating to the next level of possibility.

3. MATERIALS

Save various things like packaging and other interesting recyclables you find around the house.

4. TIME

Time is a key component in establishing a creative space for your kids.

5. STORAGE

Having a storage bin or two serves as a tidy home for materials to have available.
